**Subject:** Microsoft Settlement

Please end the Clinton-era Anti-trust legal abuse. The Microsoft trial squandered taxpayers' dollars, was a nuisance to consumers, and was a serious deterrent to investors in the high-tech industry. Consumers would rather see competition encouraged. The investors who propel our economy can finally breathe a sigh of relief.

Consumers overwhelmingly agree that settlement is good for them, the industry, and the American economy. I support the Microsoft settlement.

Sincerely,

Jill M. Heins
